**DESTINATION: YANGON**

## EASIA TRAVEL

### DESTINATION: YANGON

Rich in history, awash in spirituality and a melting pot of cultures, Yangon is the business and economic hub of Myanmar. Standing tall at the center of the city is the majestic Shwedagon Pagoda, the country's holiest site. Yangon's downtown is a cluster of colonial buildings, remainders of the British rule. As evidence of changing times, many high-rise modern buildings have been built alongside these architectural gems, creating a striking contrast.

To pick up souvenirs for friends and family, head to Bogyoke Market, which is filled with stalls selling handicrafts, jewelry, t-shirts and other items. If you are an art lover, there are dozens of galleries throughout the city. A great option to experience the local way of life from up close is a rickety ride on the circular train, making a slow loop around the outskirts of Yangon.

### DESTINATION: BAGAN

No matter how many photos you have seen, the first time you gaze over the temple-studded plains of Bagan you'll be fascinated. The history of Bagan dates back almost 2000 years, to a time when Myanmar was ruled by kings. With thousands of monuments spread out over 100 square kilometers, you are certain to find your own personal favourite.

Following small sandy lanes created by farmers and their ox carts you'll explore the ancient ruins by bike, electric bike or local horse cart, having the chance to explore them from a unique perspective. When you've had your fill of temples, a boat trip on the Ayeyarwaddy River is a perfect way to relax. The Bagan region is also known for its lacquer ware and it's possible to visit a local workshop to see the incredible handiwork process and pick up a few souvenirs to take home.

### DOMESTIC AIRLINES

We use the following five domestic airlines, all private airlines:

- Yangon Airways
- Asian Wings
- Air KBZ
- Mann Yadanarpon
- Golden Myanmar Airways

Each of Myanmar's airlines operates with different flight schedules depending on the time of year. All seven airlines fly French-Italian ATR turboprop planes, a type of plane well suited for the local conditions, airports and distances. The configuration is either 40 seats (ATR-42) or 70-seats (ATR 72). Standard one-class configuration; there is no business class on Myanmar domestic airlines.

#### **MYANMA AIRWAYS:**

Myanma Airways (not to be confused with Myanmar Airways International) is a national government owned airline for the nation of Myanmar. For the purposes of security Easia Travel only uses private airlines and never Myanmar Airways. Their aircrafts are old and have a very poor reputation for being in disrepair.
