

ANTIGENIC AND MOLECULAR (PCR) TESTS FOR TRAVEL IN PERU

Following the new regulations for travel in Peru, passengers entering the country must carry the results of their PCR test, carried out within 72 hours before boarding the plane.

And to avoid the mandatory 14-day quarantine, passengers must undergo an antigen test within 24 hours of entry to ensure their optimal health.

CONDOR TRAVEL may coordinate the taking of the test with an authorized laboratory, if the client requests it:

1

Condor Travel coordinates the appointment with the medical laboratory 48 hours before the passenger's arrival. Passengers can choose to take between:

**ANTIGENIC
TEST**

**MOLECULAR (PCR)
TEST**

* EACH TEST HAS A DIFFERENT COST AND IT MAY VARY DEPENDING ON THE CITY WHERE IT IS CARRIED OUT (LIMA, CUSCO OR SACRED VALLEY)

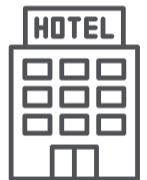

2

The medical team will go to the hotel where the passenger is staying to perform the test.

ATTENTION SCHEDULES

LIMA: MONDAY TO SUNDAYS, 24/7.

CUSCO & SACRED VALLEY: MONDAY TO SATURDAY, FROM 7:00 TO 17:00 HRS.

3

The passenger must sign a letter of consent * to the laboratory, in order to access the results of their test via email or WhatsApp:

ANTIGENIC TEST: LIMA & CUSCO: Results are ready in 30 minutes
SACRED VALLEY: Results can take up to 2 hours

MOLECULAR TEST (PCR): Results can take up to 12-24 hours

* THIS LETTER OF CONSENT WILL ALLOW THE TOUR OPERATOR TO HAVE ACCESS TO THE RESULT OF THE TEST.

If the test result is **NEGATIVE**, passengers can continue with their scheduled itinerary. If the result is **POSITIVE**, the passenger must comply with the 14-day quarantine, with the possibility of retesting on the sixth day.

The passenger can also request to undergo a molecular (PCR) test if the result is required to return to their country. This coordination must be made with 48 hours in advance.

Condor Travel staff will provide all necessary support throughout the entire process. For any further information, please contact your account executive.
