

# EXPLORE PORTO- A HISTORIC CITY WITH A MODERN TWIST!

The heart of the city is a UNESCO Heritage site, and of course, it will always be associated with its production of Port Wine. Wine tasting options are many - obviously the Port Wine Cellars in the city itself but excursions into the stunning Douro Valley are a must for many and allow for a fascinating insight into the whole wine-producing process. Trips into the valley can be done by boat or alongside the river by train.

## Don't miss:

- **A half day guided tour through the historic centre of Porto:** Porto has plenty of historical and cultural sites to visit and the city center is very compact- therefore most sites are located within walking distance of each other. Some highlights include the Sao Bento station, the Dom Luis I Bridge or the Ribeira neighborhood.
- **Full day excursion to the Douro Valley:** Backed by the Serra do Marão mountains and overlooking the wide valley of the River Douro, the peaceful town of Peso da Régua is the official centre of the Port wine growing region. From here, barrels of wine were traditionally transported to Vila Nova de Gaia in the past using wooden sailing ships called rabelos. Furthermore, the magnificent Douro Valley is even counted among the UNESCO world heritage sites! The excursion also entails a wine tasting and lunch at a traditional Portuguese Quinta.
